Notes

- Score the Tempting Turquoise card stock at 4¼". Then fold and crease for the card base.
- Score the Thick Whisper White card stock at 4" but just ½" in from each side.
- Stamp the roller coaster in Real Red ink in the middle of the 4⅝" x 3⅜" Whisper White card stock.
- Stamp the greeting "Let the good times roll" also in Real Red ink below the roller coaster. I left about ⅜" between.
- Stamp the roller coaster cars in Tempting Turquoise ink at the top of the roller coaster. Then stamp two sets of cars on scraps of Whisper White card stock.
- Use the Thrill Ride roller coaster die on the 8" x 5¼" Thick Whisper White card stock. Align the slots and points with those ½" score lines.
- Cut out the three clouds from Whisper White scraps. Cut the tiny banners from Real Red scraps. Cut the two stamped sets of roller coaster cards. And cut the sun from the Gold Glimmer Paper.
- Use the Sponge Dauber and Pool Party ink to lightly color the edges of all the clouds.
- Stamp the greeting "Hoping your birthday is a thrill to remember" in Real Red ink in the bottom section of the die cut Thick Whisper White card stock.
- Score along the edges of the tracks with either a Bone Folder or the embossing tool from the Simply Scored Tool. Be careful not to score the flags. Pull the flags to the front of the tracks. Crease the ½" scored lines on the card stock edges. Crease the score line at the bottom of the coaster supports. Carefully pinch along the bottom of the first track down in a "mountain fold" and then the other side of that track up in a valley fold. Repeat with the top row of track. Adhere to the inside of the card base, using adhesive all around the outside and on either side of the pop-up area. Match the ½" score lines on the Whisper White with the score lines of the card base. Close the card and "smash it" flat. Whew! The hard part is done! Time to decorate and assemble.
- Add the red tiny flags to the pop-up flags. I used Multipurpose Liquid Glue, but the Fine-Tip Glue Pen would be great for that as well.

12. Adhere the clouds with Mini Stampin' Dimensionals near the top of the card. If they are too low, they could interfere with the pop-up, especially the flags.
13. Adhere the sun at the top of the card with a Stampin' Dimensional.
14. Adhere the roller coaster cars. When adhering the cars to the bottom track, put Mini Stampin' Dimensionals on the coaster structure. If you put them on the cars, they're likely to stick to the card base, holding it closed. You don't have to be careful about the coaster cars on the top track.
15. Assemble the card front layers. The stamped layer goes on the Real Red card stock with a tiny border. The red layer goes on the Dazzling Diamonds Glimmer Paper, so use plenty of strong adhesive. The Glimmer Paper goes on the card front.
