I think the only one not in MDS2+ is the Two-Step Owl Punch, but I can show how to use a pumpkin instead.

Project Planner

8/23/12

Paper	Catalog*	Page		Price
Whisper White Card Stock 8 1/2" X 11"	12-13	156	100730	\$8.50
My Digital Studio Content	Type	Item #		Price
Howlstoath & Scaringbone	Background	129827 / MDS2+		\$4.95

Tasteful Trim Shape 1	Punch	123997 / MDS2+		\$0.95
Alphabet Soup Punches	Punch	129015 / MDS2+		\$9.95
Embellishments, Tools, & Accessories		Catalog*	Page	
Googlies		H 12	27	

Notes

Front and Back

1. First apply Howlstoath & Scaringbone houndstoath Designer Series Paper as a full background.
2. Add Embellishment Taffeta Trimmings – ripple black at the bottom.
 1. Insert Duplicate Page.
 2. Add a text box with “Created by _____,” and 8/23/12
 3. Mirror the Taffeta Trimmings on the back of the card.
 4. You can check alignment with the Guide Lines.

Front

5. Add a Modern Label Punch and fill with Very Vanilla.
6. Add a mat to the label and change the color to orange.
7. Add “Happy Halloween” from A Little of This.
8. Add brads. If you don't have brads, use pearls and recolor black.
9. Add Autumn Elements (the last one with the dark band) and recolor to Elegant Eggplant.

10. Add a layer of Very Vanilla card stock and resize. Mine is 2.739 x 3.208.
11. Add a Mat and match the color with the orange in the Designer Series Paper.
12. Add the punch shapes for the Two-Step Owl.
13. Match the largest part with the Mustard color.
14. Fill the chest with the striped Designer Series Paper from Howlstoath & Scaringbone
15. Match the heart with the orange color.
16. Match the largest eye circle with the gray color.
17. Fill the smaller eye circle with Whisper White.
18. I used My Digital Studio to add the eyes, but they are very tiny and difficult to work with. You could use the brads, pearl, or rhinestone embellishment. You could also skip the smaller parts and only use Googlies.

Inside

19. First apply Howlstoath & Scaringbone Stripe Designer Series Paper as a full background.
20. Insert Duplicate Page.
21. Add a layer of Very Vanilla card stock. Resize. Mine is 3.481 x 3.768.
22. Add a scallop trim shape. Recolor to match orange.
23. Add a small piece of Designer Series Paper. Move it to mask the end of the trim. You can move the patch around to the right portion of the paper by double-clicking.
24. Add the boot stamp from Spooky Bingo Bits.
25. Mirror one of the boots and rotate both boots a little.
26. Order and move the Very Vanilla to the front.
27. Add the letters from Alphabet Soup Punches. Fill with Basic Gray.
28. I used a lower case i for the exclamation mark and then flipped it.
29. Use the Arrange and Align tools for the letters. Just put them about where you think they should go, especially the B and !
30. Select all and Space Evenly – Horizontal
31. Move them up and down on the card stock to where you want them. Arrange, Align, Bottom.
32. Put a shadow behind every element “in this album.”

Print

33. Move the back page to the Page 1 position.

34. See printing directions.
