7. Go back to first page and add Autumn Elements flourish of your choice. Shrink to size. Spin it. Recolor to Whisper White.
8. Add Stamp: Word Play So Worth the Wait. Change Color; Combos tab; Click on Wisteria Wonder and select a coordinating color. If you don't like that group of colors, click Wisteria Wonder again to see a different group. I selected the first group and used Lucky Limeade.
9. Add a shadow.
10. Add "So the {}", move directly over the matching letters, and change to Whisper White.
11. Add 20 of the largest pearls across the bottom.

- a. Place one just inside each edge of the page.

- c. Arrange, Align, Space Evenly – Horizontal.
- d. Arrange, Align, Bottom.
