Notes

1. Fold each square of the Designer Series Paper® in half perpendicularly and diagonally in all directions.
2. For the 6" squares cut a 1¼" slit in the perpendicular creases.
3. Gently turn each central corner to the diagonal fold, rolling to create a sharp point. Gently crease.
4. Apply strong adhesive (Tear & Tape Adhesive or Fast Fuse) to the fold of one triangle of each of the four sides.
5. Adhere a loop of cord into one corner with Tear & Tape Adhesive.
6. Pull the opposite triangle toward the adhesive and press.
7. Repeat with the other 6" square.
8. Arrange the stars with points evenly spaced. Add a glue dot where they touch.

For 4" squares, slit at 1".
For 3" squares, slit at ¾".
