Notes:

- Assemble the box. Tuck the front panel down into the box.
- Place a 2 7/8" x 4" piece of Window Sheet into the bottom of the box.
- Base
 - 2 1/2" x 9 3/4" card stock
 - Score at 2 7/8" and 6 7/8".
 - Place into the box on the side with the tucked down panel.
- Tear & Tape Adhesive
 - (2) 2 1/2" x 4 3/4" card stock
 - Score each at 3/8" and 4 3/8".
 - Adhere the ends together.
 - 3 7/8" x 5" card stock
 - With the 5" side at the top, score at 2 1/2". Fold and crease. Put adhesive on the outer and inner edges of one section. Place this half inside the "box" made in 4 a ii.
 - 3 7/8" x 2 3/8" Window Sheet
 - Add adhesive to the other side of the folded card stock and on the "box". Place the Window Sheet on one side and close the folded card stock. This just adds strength to the "box".
 - Mark the strengthened side of the box, starting with the fold of the box (as opposed to the folded card stock at 1/2", 3/4", 1 3/8", 1 3/4", 2 1/4", and 2 7/8").
- Tall Tools: Bone, Take Your Pick, pen, and Snips Dividers
 - 2 1/2" x 10 7/8" card stock

 - Crease valley, valley, mountain, mountain, valley, valley, mountain, mountain, valley, valley, mountain, mountain, valley, valley, mountain.

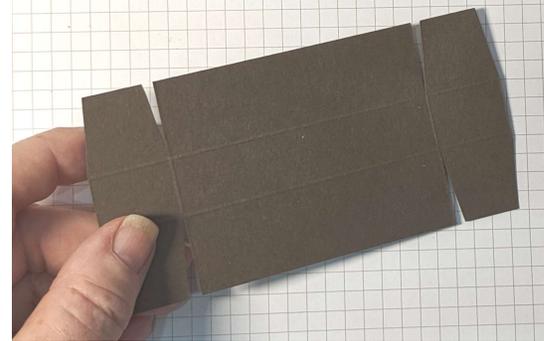

- iii. There will be 16 sections. Turn the card stock so the first fold 1t 1/2" is a mountain fold. Add adhesive to section 2, 6, 10, 14, and 15. These sections will be between two mountain folds except for the last one, section 15.
- iv. Add the strip with all the folds, zig zagging up and down. Each section with adhesive should start at a mark on the "box" and section 16 should overhang to be glued to the end of the "box."
- b. 3 5/8" x 5" card stock. This is another strengthening divider.
 - i. With the 5" piece on top, score at 2 1/2".
- c. 3 5/8" x 2 3/8" Window Sheet
 - i. Adhere the Window Sheet inside the card stock.

Mini Trash

This little trash will last for quite a while, but not forever. It is easily replaces.

- a. 5 1/2" x 10 1/2"
 - a. With the card stock long side at top, score at 2 1/2", 5", 7 1/2", and 10.
 - b. Turn with the short side at top, score at 3"
 - c. Trim as shown.
 - d. Adhere the 1/2" tab.
 - e. Adhere the bottom.
 - f. Pinch in the 2 sides, helping the bottom portion to form a triangle. Fold the bottom up.

Here are the essentials that will fit in the tool box, plus a few 3 3/4" x 5" pieces of Whisper White and Very Vanilla card stock, a Mono Sand & Rubber Eraser, tweezers, a "third hand" (alligator clip from the hardware store for holding ribbon while tying bows), pen, pencil, and mini trash bag.

bows, and a small pair of tweezers. And I just ordered a 6" metal ruler to keep in the same section with the Bone Folder.

I didn't want to be without Tear & Tape Adhesive though. I rerolled some into a 4" loop and then around several more times. This can then be folded and tucked into one of the spaces next to the Paper Snips. I did the same thing with some Mini Glue Dots that also take next to no space and can tuck into the front row.
