By Bev Adams, [bevadams@verizon.net](mailto:bevadams@verizon.net), [www.BevAdams.com](http://www.BevAdams.com)**Notes for the basic card:**

1. Cut Whisper White or Real Red card stock to 5" x 8 ½". Score at 1 ½" and 5". Fold and crease for the card base.
2. Adhere the sides of the 1 ½" portion toward the inside of the card base to form a pocket for the gift card.
3. If you used Real Red, cut a piece of Whisper White card stock to 1" x 4 ½" and stamp Merry Christmas in Basic Gray or Real Red ink. Adhere, centered on the pocket flap. If you used Whisper White for the card base, you will not need the strip.
4. Cut the Designer Series Paper to 4 ¾" x 3 ¼". Punch a scrap of scrap paper with the 2 ¼" Punch. Temporarily adhere the circle to the Designer Series Paper about ¼" from the left edge and centered top to bottom (or maybe a bit lower). This will help you know where to punch the Designer Series Paper. Punch.
5. Adhere the Designer Series Paper rectangle to the front of the card front. Add the punched circle into the hole with the opposite side showing paper.
6. Cut a piece of Whisper White card stock to 1" x 2 ½". Stamp *To:* on the left side. Adhere to the bottom right of the card front, leaving a bit of Designer Series Paper showing all around.
7. If you are stamping with Basic Gray, stamp the snowman on scrap paper, then on a scrap of Whisper White card stock without re-inking. (Stamp off). If you have the Watercolor Pencils, you can color the snowman. Or if you have Pool Party ink, use it to stamp the snowman. Cut out the snowman. Use Paper Snips or the Snowman Builder Punch. Adhere to the circle on the card front.
8. If you are lucky enough to have the Let It Snow Embellishment kit, use it to add coal to the buttons, the arms, and a scarf and hat. If you don't have it, you can stamp the hat and arms and cut them out with Snips or the punch and add them to the snowman. You can use the Real Red Curly Ribbon for a scarf. You can color the snowman with Watercolor Pencils and/or add dimension with the Shimmery Chrystal Effects. I used Stampin' Dimensionals for the hat (either kind) and the scarf that hangs over the side.
