## Notes:

- Score the Thick Whisper White card stock at 4 ¼". Fold and crease for the card base.
- Stamp *You can do this* in Just Jade ink on the bottom right corner of the card front.
- Trim a sheet of the Grid Paper to 6". Add a bit of adhesive to lightly tack the Just Jade card stock to it, centering on the lines.
- Line up the #1 Stitched Triangle (largest right triangle) with the longest side parallel to the left side of the card stock, centered with the point at 2" on the card stock, and about 1" of the point of the triangle over the card stock. Run through your die cutting machine.
- Move the die 1" forward, centering it, and cut again.
- Repeat, moving the die forward **but** this time, place the top cutting plate so the end does not go over the back of the triangle.
- Repeat two more times.
- Emboss each angled piece of card stock in a different embossing folder. I tried to alternate the more subtle designs with the more dramatic designs.
- Adhere one angled piece as far to the right on the card front without covering the greeting.
- Repeat, leaving a tiny gap, if desired.
- Depending on if you left a gap between strips and how far to the right of the card you started, you may need to make adjustments on the left side of the card. If you have a gap, add a thin strip of card stock. Or perhaps you will need to trim the angled pieces so they line up evenly.
