By Bev Adams, bevadams@verizon.net, www.BevAdams.com

Notes:

- Score the Seaside Spray card stock at 4¼". Fold and crease for the card base.
- Adhere the 5 ¼" x 4" Whisper White layer inside the card.
- Stamp the jar in Seaside Spray ink on one half of the 2 ¾" x 4 ¼" Whisper White card stock. Place the half full jar stamp on the block in reverse. Ink with Seaside Spray ink, "stamp off" on scrap paper, and stamp the water inside the jar.
- Stamp the stems in Smoky Slate ink with the tops of the stems even with the bottom of the rings on the jar. Stamp the flowers in Smoky Slate ink on the other half of the 2 ¾" x 4 ¼" Whisper White card stock.
- Color the stems, leaves, and flowers with the Stampin' Write Markers or Stampin' Blends™. (We were not able to purchase any of the new In Color inks before June 3rd, so I had to make do.)
- "Fussy cut" the flowers. You could even stamp the flowers a second time and cut out individual flowers to put up with Mini Stampin' Dimensionals.
- Adhere the 1" x 3" Designer Series Paper to the bottom of the coordinating 3 ¼" x 4 ¼" card stock. There will be a ⅛" border. Adhere the 3" x 3" Designer Series Paper above the 1" strip. Use the Jar Punch, inserting it all the way the bottom of the card stock.
- Adhere the Window Sheet, over the stamped jar with Mini Stampin' Dimensionals. The Stampin' Dimensionals should be just outside of the stamped area. Trim card stock closer to the width of the jar to save ribbon. Tie a bow around the top of the jar.
- Adhere the stamped jar behind the punched shape with Mini Glue Dots.
- Adhere the Designer Series Paper layer to the card front with Stampin' Dimensionals.
- Adhere the flowers over the jar with Mini Stampin' Dimensionals.

Replace the Window Sheet with the Mason Jar Shaker Domes.

- Place a few Gems on the flower stems. Remove the back backing from the dome. Adhere over the stamped jar. Trim the Whisper White card stock closer to the dome. Remove the front backing from the dome. Tie the ribbon around the dome. Add Glue Dots over the ribbon at the sides to keep snug to the dome. Place the piece from step 7 over the dome. Go to step 11.
