Notes:

- Cut one sheet of Shaded Spruce card stock as shown. In addition to the small layer we'll use for this card, you will also have a standard card base and a large and small layer for another project.
- Sacrifice one card to cut up. Cut a piece 2 1/2" x 4".
- Place the more solid large flower stamp on the Clear Block E or on the Stamparatus plate. Ink the stamp with Flirty Flamingo ink. If using a Stampin' Spot, it's easier to leave the stamp on the table and tap the ink pad onto the stamp. Stamp the flower on a piece of scrap paper ("Stamp off"). Stamp without reinking in the top left of the 2 1/2" x 4" piece.
- Clean the solid stamp and put it back in the case. Put the large flower stamp with the lines on the block. Ink this and stamp right over the first stamp. It is not necessary to fit the two images exactly. Clean this stamp and return it to the case.
- Place the stamp with the three solid leaves on the Clear Block B or the Stamparatus plate. Ink with the Shaded Spruce ink. "Stamp off." Stamp to the side of the flower. I aimed to get the stem between two petals. Clean and return this stamp.
- Place the stamp with the three lined leaves on the Clear Block B or the Stamparatus plate. Ink with the Shaded Spruce ink. Stamp over the previously stamped leaves. Clean and return this stamp.
- Stamp the greeting in Shaded Spruce ink in the open area.
- Adhere this layer to the Shaded Spruce piece you cut in step 1.
- Fold and crease a pre-scored note card. Adhere the layers to the card front. Using Stampin' Dimensionals in the corners and center add a lot to the card.
