## Notes:

- Score the Basic Beige card stock at 4¼". Fold and crease for the card base.
- Pierce one of the 3⅞" x 5⅞" Basic Beige pieces about an inch from the edge of the long side. Tear an oval about 1" from the three edges and about 1¼" from one of the short ends.
- Emboss the Crumb Cake and the torn piece of Basic Beige with the Seaside Wishes Hybrid Embossing Folder.
- Ink the small sand dollar with Crumb Cake, stamp off on scrap paper, and then stamp in the corner of the other Basic Beige layer. Snip around the image just to separate it.
- On the remainder of the Basic Beige piece, stamp two of the small sea stars and one large one in Pecan Pie ink. Cut the sea stars out with the dies.
- Stamp the large sea star in Pecan Pie ink on the inside of the card. Also stamp some of the pebbles and spatter in Crumb Cake ink.
- You may also want to stamp the envelope to match the card inside.
- Cut the sea grass from the Soft Sea Foam card stock.
- You may want to use the two small blossom dies from Citrus blooms to cut the some of the Basic Beige card stock. I think they look like tiny sea stars.
- Cut the Very Vanilla card stock with the small detailed sand dollar. I mainly wanted to use the "confetti" as bits of shell, but you may also want to use the actual die cut piece on your card.
- Position the small sand dollar piece on the large die as if you were going to cut it out. Tape it into place. Open the embossing folder and place the die on the side with the Stampin' Up! logo and the cut side up. The die should set into place, but it doesn't lock into place. Take some care that it doesn't shift. The card stock should still be in place with the stamped side facing down toward the die and the folder. Close the other side of the folder over the card stock and die. Roll it all through the Stampin' Cut & Emboss Machine to cut and emboss the sand dollar at the same time.
- Stamp the greeting in Pecan Pie ink on the Very Vanilla piece. I also stamped some of the spattered dots. Punch out with the Labeled with Love Punch. Punch a hole in one end.
- Use a Sponge Dauber and Soft Sea Foam ink to add a bit of color to the Soft Sea Foam sea grass.

### The Shaker Assembly

14. Use Tear & Tape to adhere the Window Sheet behind the torn opening on the Basic Beige layer.
15. Lay a frame of Foam Adhesive strips about  $\frac{3}{4}$ " from the edges of the Crumb Cake embossed layer. There should be absolutely no gaps. I suggest you start on one side and cut the end to fit. Press the next strip up against the end of the first strip. Repeat all the way around, pressing each strip tightly against the previous one. You will likely have small pieces of foam strip. Use a few small pieces to double up on the corners. Press the foam strips firmly onto the card stock. Do not remove the backing from the top edge of the foam.
16. Turn the Crumb Cake layer so that the large embossed sand dollar is on the bottom.
17. Place 1-2 teaspoons of sand into the center of the foam frame. Add one of the small sea stars and the bits of Very Vanilla "confetti."
18. Carefully remove the backing from the foam strips and lay torn Basic Beige layer onto the Foam strips with the Window Sheet on the inside. The large sand dollar should also be on the bottom of this layer.
19. Carefully press down all the way around the frame to get a good seal.
20. Arrange the sea grass, sand dollars, and sea stars on the card. When you're happy with the arrangement, glue into place.
21. Add the Linen Thread to the greeting tag and use a mini Glue Dot to hold it near the top of the card. Place a gold Sparkle Gem over the glue dot.
