Notes:

Prepare

- Score the Basic White card stock at 5½". Fold and crease for the card base.
- Cut ¾" from the top edge of the Designer Series Paper. Then cut two pieces 1¾" x 5¼", leaving one at 2½" x 5¼".
- Cut the ¾" strip into two pieces, but not exactly in half. Stack the pieces with opposite sides up and the bottoms even. Flag the bottom edges. Adhere to the top edge of the inside of the card.
- Adhere the most desired side of the 2½" x 5¼" Designer Series Paper to the center of the card front, leaving ⅛" border on the top and bottom.
- With the most desired side of the Designer Series Paper facing down, adhere the right edge of one of the 1¾" x 5¼" to ⅛" from the right side of the card front. Adhere the left edge of the other 1¾" x 5¼" to ⅛" from the left side of the card front.
- Fold the inside corners of the side Designer Series Paper toward the sides and center.
 - Starting at the upper right corner, put one finger over the top edge where it touches the edge of the center Designer Series Paper so it doesn't expose the card base and put the another finger at the center of the DSP. Fold the inside corner down and to the right edge of the Designer Series Paper.
 - Repeat that process for each of the four sections.
 - Don't worry if the centers are not exactly even.
- Rub the other piece of Designer Series Paper with the Embossing Buddy. Stamp *Oh, happy day* in Versa Mark ink. Dust with copper embossing powder. Heat until shiny. Punch with the Circle Punch. Add Stampin' Dimensionals to the back of the circle. Adhere over the center of the card, covering any irregularity at the center.
- Add a few of the Iridescent Foil Gems.
