Notes:

Prepare

- Score the 8½" x 5½" Thick Basic White card stock at 4¼". Fold and crease for the card base.
- Emboss on piece of the remaining white card stock with the Fern & Flora 3D Embossing Folder. You could also emboss the envelope flap.
- Stamp the large fern in Peaceful Pine ink on one end of the other white card stock. Stamp the label frame in the same ink on the other end of the card stock. Then stamp the greeting inside the frame.
- You could add the stamp to the inside of the card as well, if desired.
- Cut out the fern and label with the coordinating dies.
- Cut out the large fern and lacy leaf from the center of the Peaceful Pine card stock.
- I colored parts of the green leaves with the Water Painters and a drop of White Craft Refill ink. I use a scrap of Window Sheet for a palette.
- You could also color the stamped fern with Peaceful Pine ink and the Water Painter, if desired.
- Adhere the remainder of the Peaceful Pine card stock to the card front.
- Adhere the embossed layer over the green one.
- Adhere the large green fern along the left side of the card front.
- Adhere the stamped fern a little lower with the stems close.
- Adhere the greeting label over the ferns with Stampin' Dimensionals.
- Add the remaining green leaf so it barely comes over the bottom of the label and the stem is over the other two.
- Tie a bow with the ribbon, but instead of making your second loop, pull it all the way through. Adhere over the stems with a Mini Glue Dot.
